# Anirban Mitra

Career Profile

A Technically sound and well experienced SAP professional offering over six years of experience in the IT field. Having spent five years of my career as a SAP Net weaver XI (Exchange Infrastructure), and possessing an additional of fourteen months experience in SAP-ABAP, I would bring to an organisation tremendous technical skills and expertise. As an experienced technical professional, I am well versed in the design and configuration of various SAP-XI components including, Integration Builder, Runtime Workbench and System landscape Directory. My technical knowledge and expertise is further enhanced through hands on exposure in, In Design & Configuring SAP XI Integration Broker, Business Process Management (BPM) and Runtime Component Analysis. Possessing a goal oriented outlook and highly skilled at capitalizing on opportunities and working around obstacles with the aim to accomplish required objectives, I currently seek a challenging opportunity within a highly progressive and technically sound organisation which would provide unlimited scope for growth and career enhance-
